APPROVED FOR RELEASE
DATE: JUL 20 1964

MEMO. No. 449.

To: 7404/7417.

From: 7408.

13 February 1945.

Your Memo. No. 61 dated 12th inst.

It is not possible for me to give you any idea as to the volume of material which could be shipped to 7466 from here. Months might go by without any connection to FYW at all. The schooners referred to in my telegram No. 407 are now up the river, and when they pass down on their way south again, we might be able to intercept them and transfer a load of stores.

2. If I knew in advance what you would like 7466 to have out of the stores in our possession here, then I could make the necessary arrangements should shipping space suddenly become available. You can reckon on a schooner being able to take between 30 and 50 packages, providing the skipper and crew are game. You can see from the latest CREEP telegram what I have on hand here, and anything we ship could always be made up later. As soon as anything is arranged, I would send you a telegram giving all details so that H.Q. could W/T 7466 telling him what was on, so that he in his turn could arrange to collect.

7408.
